

# ST. MARY SCHOOL

62 Cedar Street • Branford • Connecticut 06405

Fall 2013

Dear Friend,

We are happy to bring you news of God's work at St. Mary School. For our children – ages 3 to 13 – school is a joy and a blessing.

You would recognize many aspects: passionate teachers, engaged children, a multi-disciplinary core curriculum, strong moral focus and an atmosphere of love and respect are still the hallmarks of a St. Mary's education. Children continue to benefit from small class sizes, hands-on learning and a community that values each child.

But there are new activities that might surprise you. Our students and teachers use Ipads, SMART boards and laptops regularly. Our enrichment activities include foreign languages and the arts. Our students lead and participate in impactful community service projects. Each of our grades is separate, and enrollment is on the rise.

**Keeping St. Mary School into step with the 21<sup>st</sup> century is a key priority of our teachers, students, families and staff.**

Please consider supporting our fall appeal, so that our students can continue grow and serve God in their lives, and so that St. Mary's will continue to be a contemporary, vibrant resource.

**A gift of \$100 or more will help us to remain an excellent school.** With just a small contribution, you can help a child achieve a strong educational and moral foundation in life.

Thank you for your commitment to St. Mary School, our students, families, teachers and staff!

God's blessings on you and your loved ones,
